Cardenas M, → Lindemann WC, et al. 318
Carter MF, → Katyal JC, et al. 16
Ceccanti B, Bonmati-Pont M, Nannipieri P: Microdetermination of protease activity in humic bands of different sizes after analytical isoelectric focusing 202
Chino M, → Youssef RA, et al. 341
Cochran VL, Elliot LF, Lewis CE: Soil microbial biomass and enzyme activity in subartic agricultural and forest soils 283
Coleman DC, → Wright DH 46
Cortez J: Effect of drying and rewetting on mineralization and distribution of bacterial constituents in soil fractions 142

Dart PJ, → Giller KE, et al. 11
Day JM, → Giller KE, et al. 11
DeLuca TH, Skogley EO, Engel RE: Band-applied elemental sulfur to enhance the phytoavailability of phosphorus in alkaline calcareous soils 346
Dennis GL, Fresquez PR: The soil microbial community in a sewage-sludge-amended semi-arid grassland 310
Dindal DL, → Hamilton WE 129
Dodd JC, Jeffries P: Effect of fungicides on three vesicular-arbuscular mycorrhizal fungi associated with winter wheat (*Triticum aestivum* L.) 120
Dodd JC, Jeffries P: Effects of herbicides on three vesicular-arbuscular fungi associated with winter wheat (*Triticum aestivum* L.) 113
Döbereiner J, → Hungria M, et al. 325
Drevon JJ, → Kimou A 259
Dudeja SS, Khurana AL: Survival and competitiveness of *Bradyrhizobium* sp. in the rhizosphere of pigeonpea (*Cajanus cajan*) 63
Dunigan EP, → Breitenbeck GA, et al. 58

El-Atrach F, → Azcón R, et al. 28
Elliot LF, → Cochran VL, et al. 283
Engel RE, → DeLuca TH, et al. 346
Eskew DL, → Okoronkwo N, et al.. 275

Fardeau JC, → López-Hernàndez D, et al. 134
Faurie G, → Steinberg C, et al. 101
Foissner W, → Petz W 225
Fresquez PR, → Dennis GL 310
Fresquez PR, → Lindemann WC, et al. 318
Fuhrmann J, Wollum II AG: Nodulation competition among *Bradyrhizobium japonicum* strains as influenced by rhizosphere bacteria and iron availability 108

Gamard P, → Steinberg C, et al. 101
Garcia M, → Ladha JK, et al. 191
Giller KE, Wani SP, Day JM, Dart PJ: Short-term measurements of uptake of nitrogen fixed in the rhizospheres of sorghum (*Sorghum bicolor*) and millet (*Pennisetum americanum*) 11

Habte M: Impact of simulated erosion on the abundance and activity of indigenous vesicular-arbuscular mycorrhizal endophytes in an Oxisol 164
Hafeez FY, Idris M, Malik KA: Growth and survival of cowpea bradyrhizobia in various carrier materials 279
Hamilton WE, Dindal DL: Influence of earthworms and leaf litter on edaphic variables in sewage-sludge-treated soil microcosms 129
Harinikumar KM, Bagyaraj DJ: Effect of cropping sequence, fertilizers and farmyard manure on vesicular-arbuscular mycorrhizal fungi in different crops over three consecutive seasons 173
Hart SC: Carbon and nitrogen accretion and dynamics in volcanic ash deposits from different subarctic habitats 79
Hashimoto T, Hattori T: Grouping of soil bacteria by analysis of colony formation on agar plates 198
Hattori T, → Hashimoto T 198

Henschke RB, Nücken E, Schmidt FRJ: Fate and dispersal of recombinant bacteria in a soil microcosm containing the earthworm *Lumbricus terrestris* 374
Hilali A, Aurag J, Molina JAE, Schmidt EL: Competitiveness and persistence of strains of *Rhizobium phaseoli* introduced into a Moroccan sandy soil 213
Hoult EH, → Bacon PE, et al. 263
Hungria M, Neves MCP, Döbereiner J: Relative efficiency, ureide transport and harvest index in soybeans inoculated with isogenic HUP mutants of *Bradyrhizobium japonicum* 325
Hungria M, Ruschel AP: Acetylene reduction, hydrogen evolution and nodule respiration in *Phaseolus vulgaris* 351

Idris M, → Hafeez FY, et al. 279

Jarrell WM, → Silva G, et al. 330
Jeffries P, → Dodd JC 113, 120

Kanazawa S, → Youssef RA, et al. 341
Kannaiyan S, Somporn C: Effect of high temperature on growth, nitrogen fixation, and chlorophyll content of five species of *Azolla-Anabaena* symbiosis 168
Katyal JC, Carter MF, Vlek PLG: Nitrification activity in submerged soils and its relation to denitrification loss 16
Kay IS, Virginia RA: Asymbiotic dinitrogen fixation by tundra in the Imnavait Creek drainage, Alaska, USA 207
Khurana AL, → Dudeja SS 63
Kimou A, Drevon JJ: Hydrogen metabolism and nitrogen fixation of soybean (*Glycine max.* L.) inoculated with different strains of *Rhizobium* spp 259
Kumar Rao JVDK, Sithanantham S: Impact of nodule damage by *Rivellia angulata* on N_2-fixation, growth, and yield of pigeonpea (*Cajanus cajan* L. Millsp.) grown in a Vertisol 95

Ladha JK, Miyan S, Garcia M: *Sesbania rostrata* as a green manure for lowland rice: Growth, N_2 fixation, *Azorhizobium* sp. inoculation, and effects on succeeding crop yields and nitrogen balance 191
Lensi R, → Steinberg C, et al. 101
Lewis CE, → Cochran VL, et al. 283
Liljeroth E, Bååth E: Bacteria and fungi on roots of different barley varieties (*Hordeum vulgare* L.) 53
Lindemann WC, Fresquez PR, Cardenas M: Nitrogen mineralization in coal mine spoil and topsoil 318
Lopez CF, → Nelson DL 269
López-Hernàndez D, Niño M, Nannipieri P, Fardau JC: Phosphatase activity in *Nasutitermes ephratae* termite nests 134

Malik KA, → Hafeez FY, et al. 279
Mattson KG, Swank WT: Soil and detrital carbon dynamics following forest cutting in the Southern Appalachians 247
McGarity JW, → Bacon PE, et al. 263
Mishra RR, → Tiwary MB, et al. 359
Mitchell MJ, → Morgan CR, et al. 239
Miyan S, → Ladha JK, et al. 191
Molina JAE, → Hilali A, et al. 213
Morgan CR, Schindler SC, Mitchell MJ: The effects of feeding by *Oniscus asellus* (Isopoda) on nutrient cycling in an incubated hardwood forest soil 239
Mulongoy K, Callens A, Okogun JA: Differences in mycorrhizal infection and P uptake of sweet potato cultivars (*Ipomoea batatas* L.) during their early growth in three soils 7
Mulvaney RL, → Azam F, et al. 32, 180

Nannipieri P, → Ceccanti B, et al. 202
Nannipieri P, → López-Hernàndez D, et al. 134
Nelson DL, Lopez CF: Variation in nitrogen fixation among populations of *Frankia* sp. and *Ceanothus* sp. in actinorhizal association 269
Neves MCP, → Hungria M, et al. 325
Niño M, → López-Hernàndez D, et al. 134
Nücken E, → Henschke RB, et al. 374

Okogun JA, → Mulongoy K, et al. 7
Okoronkwo N, van Hove C, Eskew DL: Evaluation of nitrogen fixation by different strains of the *Azolla-Anabaena* symbiosis in the presence of a high level of ammonium 275
Olayinka A, Adebayo A: Effect of pre-incubated sawdust-based cowdung on growth and nutrient uptake of *Zea mays* (L.) and on soil chemical properties 176
Omar AMN, Richard C, Weinhard P, Balandreau J: Using the spermosphere model technique to describe the dominant nitrogen-fixing microflora associated with wetland rice in two Egyptian soils 158
Ottow JCG, → Breimer RF, et al. 297

Paul JW, Beauchamp EG: Denitrification and fermentation in plant-residue-amended soil 303
Petz W, Foissner W: The effects of mancozeb and lindane on the soil microfauna of a spruce forest: A field study using a completely randomized block design 225
Pižl V, → Šimek M 370
Prade K, Trolldenier G: Effect of wheat roots on denitrification at varying soil air-filled porosity and organic-carbon contents 1

Ramshaw GA, → Scullion J 39
Reber HH: Threshold levels of cadmium for soil respiration and growth of spring wheat (*Triticum aestivum* L.), and difficulties with their determination 152
